Message from the CEO

SADAF SHAHID

I feel great pleasure to welcome you at the porch of International School of Cordoba. International School of Cordoba works in the supervision of Leading Edge Academic Network (LEAN). LEAN's commitment is to educate teachers, parents, community and pupils in its circle. The existence of ISC in Pakistan and across the globe assists the communities to provide the best quality education. We are living in an era of great changes and we see fast changes in education too. The emphasis of this era has switched to solve the real-life problems in a creative manner with the assistance of application of classroom learning. The major role for such application depends upon the quality of one's core competencies. Providing learning opportunities to young students is a great responsibility. We must realize that youngster being an individual is a real person with feelings of self-respect, sensitivity, responsibility and compassion. We need to recognize, appreciate, applaud and foster the fine blend of sensibilities in a child – thus, this effort is to be viewed as a launch pad for the children's creativity which urges to blossom naturally. As the saying goes, "Mind is like a parachute it doesn't work if it's not open." This humble initiative is to set the budding minds free allowing them to roam free in the realm of imagination and experience to create a world of beauty with the best practices. Our commitment is to enable our students to succeed in academic along with Islamic education and to make them expressive through our unique co-curricular activities. We warmly invite you to ISC to experience the implementation of our best practices and their findings in the modern education.
