Director's Message:

Presenting a note about this institution is perhaps quite a difficult ordeal since each brick, laid by Mr.Shabbir Ahmad, my father, has been done so with love and care for our community. This is an institution which shall stand forth amongst all great ones within our country and beyond; teaching discipline, adaab, logic and perseverance. We stand to not just make our "young ambassadors" excel in their academics but also in all forms of extra-curriculars, ensuring their mannerisms, their speech, and their integrity stands as a testament for all other Pakistani students.
